

Dear Homeowner:

You may know me from my Saturday morning radio show, Rosie on the House, which airs from 8a-11a on News Talk KNST. I've been doing the show for 20 years and during that time. I've met hundreds of home-improvement companies. I endorse only a small portion of those.

I think so highly of the folks at Temco Air Environmental that I call them my "partners". This is the company I would hire to work at my own mothers house. Like all the companies I endorse, the staff at Temco Air Environmental puts your need for service, quality, value and trust above the company's need to sell a particular product or make a profit. If they didn't, I wouldn't recommend them.

Driving up your quality of life is a mission for me and my staff at Rosie on the House. We're often referred to as "every Arizona homeowner's best friend," and in fact, Arizonians ranked the Rosie on the House Referral Network (www.rosieonthehouse.com) #1 among all referral services in the state on Ranking Arizona's 2010 list.

I consider that an honor and a responsibility. So I personally screen all companies before inviting them to participate in the network.

That means you can count on my recommendations as SOLID. A Rosie on the House- certified company like Temco Air Environmental is one / *know* you can rely on to be honest, fair, knowledgeable and highly skilled.

You have the opportunity to work with the best of the best in Arizona on your home improvement projects. Temco Air Environmental is the right company for all your air conditioning and heating needs..

Sincerely,

Rosie Romero
